

FAQ's

What is Wonder Ball and what is it used for?

It is a Vinyl/PVC housing, completely free of phthalates, used in your washing machine allowing you to use no detergent or fabric softeners. (Some will still use in a pinch)

What's in the Ball that makes it work?

There is a special proprietary mineral blend in the ball. When the ball is agitated in the washing machine the minerals are also agitated creating an energy field. The energy field goes thru the housing of the ball and affects the water. It is the water in that state that cleans.

Will the Ball soften the hardness of denim clothing? Yes.

What do I do about stains?

Pre-treat items as you normally would. (Some get good results using Coke on grease and oil)

Achieve A Natural April Fresh Scent!

Is the use of the Ball in the washing machine safe for the septic tank?

Yes, it is safe for the septic tank and the water table.

What effect does the Ball have on allergies?

It lessens the exposure to chemicals and irritants normally found in detergents and softeners.

Why do I need to put clothes in loosely?

Water can only hold and carry out so much dirt. It's the WATER that cleans the clothes. By overloading, you will be inhibiting the cleaning ability of the water.

Can the Ball be used in the dryer?

No. The high dry heat will damage the ball and shorten its lifespan.

Is washing with the Ball safe for animal bedding? Yes.

Can the Ball be used in the bathtub for bathing? Yes.

Why do my clothes seem to have fewer wrinkles and my cottons need less ironing?

This is due to less filler components commonly found in detergents that hold wrinkles in place.

Will the Ball work with my hand washables?

Yes, just swish the ball around in the water for 20 seconds and continue your normal process.

Is the Ball safe for my children?

Yes. Washing their clothing and bedding could possibly be the best thing you can do for your toddlers, young children, and elderly.

Bottom Line

This is an investment for your future. The Ball that is kind to the environment and saves you money. It is science of tomorrow here today. What do you have to lose? Every item comes with a 30 day money back guarantee.

High Tech Laundry Aid. Solution For Pollution.

WONDER BALL™

You'll never look at doing laundry the same way again!

Simply throw Wonder Ball in your washing machine and experience these benefits:

- No detergents needed!
- No fabric softener needed!
- Reduced drying time, up to 50%
 - Less static cling
- Non-toxic to children's clothing
- Chemical free! Skin friendly!
- May reduce allergic reactions
 - Environmentally friendly
 - Removes organic odors
 - Colors stay brighter
 - Lasts about 3+ years!
- Consumer Protection from WWT Omaha, NE; gave their approval of the Wonder Ball in 1998 after testing for 30 days.

Why Use Wonder Ball™?

For Your Clothing:

- * Clothing will last longer because they will no longer have all the heavy detergents and fillers such as glass, peanut shells, and cobs being forced in and out of the fabric.
- * The natural colors of clothing will stay brighter longer because there will be less bleeding of colors (after the manufacturer's dye has been set in).
- * Clothing and delicate lingerie will stay softer and brighter so the overall "new" appearance will remain longer.

For You and Your Family:

- * Loved ones will experience a more restful nights sleep when using bedding with no detergent and chemical residue.
- * Clothing with no detergent and residue, which makes children less susceptible to rashes and allergies.
- * **Note:** Children have a higher respiratory rate than adults, so they inhale three times the amount of contaminants, i.e.: chemical residues left in clothing and bedding. But, because their detox systems aren't fully developed, they can't filter toxins as adults do. Because of this, we now have a higher rate of kids with cancer and learning disabilities than ever before.

- Saves money
- Works in hard or soft water
- Usable in ANY washing machine
- Reduce drying time up to 50%
- Removes organic odors
- Ball lasts 3+ years!

Testimonials:

I just wanted to thank you for developing such a terrific product. The Wonder Ball keeps my clothes clean and smelling fresh. It is still doing the job after two years. Not only does it actually work, my clothes seem to have that "new" look and feel great. I have sensitive skin so using your product was just the ticket since there is NO possibility of skin reaction. I found good use for all that money I saved from laundry detergent. I bought more clothes!

Love & Many Blessings,
Candy Reif, AZ

After years and years of using laundry detergents on my clothes and paying out considerable sums of money for the privilege, I was surprised and pleased when my friend sent me this laundry ball saying that she never has to buy detergents ever again and her clothes come out fresh and clean. It seemed like magic, but I decided to give it a try. I must admit it did take about 4-5 washes before I really began to see results - it seems that there is a build up of the detergents in the machine that takes a while to get ride of - however now it is just wonderful. I have done hundreds of washes with my laundry ball and I am recommending it highly to my friends, family and business associates

Best Regards,
B. Goldsmith, London, UK

I have to tell you what a delight using the Wonder Ball has been for us. I tried it because my husband suffers for occasional bouts of eczema. His skin is always "sensitive" and I have been challenged in finding laundry soap that is not irritating. It is just wonderful to not have to worry about detergent any longer! During the first several washings, I was amazed to see the residual soap coming out of our clothes. WOW...I am pleased that my clothes are not only clean, by soft and static free. No soap, no fabric softener, no dryer sheets...such freedom! I look forward to receiving the new Wonder Ball...and having another three years of laundry freedom...

Sincerely, Many Thanks!
A. Cahoy, AZ

I am a cosmetologist and appreciate clean, soft absorbent towels. After using your product SINCE 1997, I have saved so much! My washer and dryer work like new. I will never go back to detergents or softeners.

L. Hogrefe, Iowa

How To Use:

Preparing the machine:

Depending on age of machine and detergent used, for the first time, you may want to clean the inner drum of your washing machine. Simply put the Wonder Ball in the washing machine and run a complete cycle. This cleans the old detergent and fabric softener buildup within the inner drum and spin devices.

Washing:

Simply throw the ball in your washing machine and leave it there. Pre-treat stains. Fern uses equal parts of white vinegar and sea salt. You may use what you are comfortable with. Loosely add items to be laundered and start machine. Fact: water can only hold and carry out so much dirt. It's the WATER that cleans the clothes. By overloading the washing machine, you will be inhibiting the cleaning ability of the water.

Yes, there's one for the dryer, too!

We know you'll love the results you get from the Wonder Ball. That's why we also offer Wonder Dryer Balls. These come 3 in a set. They work together keeping your clothes separated while drying. By redistributing the heat, drying time is reduced! Result, soft! When you have a clean, wrinkled garment, simply place it in the dryer on higher heat with the Wonder Dryer Balls for 7-10 minutes and most wrinkles will disappear! **NO MORE IRONING!**

DRYER BALLS ARE ENGINEERED FOR A LIFETIME!
